

Your decision to force your television stations to air untrue attacks about John Kerry is a gross abuse of your role as media owners – and constitutes an illegal contribution to the Bush-Cheney 04 campaign.

I demand that you pull your plans to air this smear against John Kerry. The partisan politics of your executives have no place in the newsrooms of your television stations. These strong arm, blatantly illegal tactics are the antithesis of democracy, and exactly why we need government entities like the FEC and the FCC. Please, do your job and stop this domestic terrorism!!
